

Please note that the following document was created by the former Australian Council for Safety and Quality in Health Care. The former Council ceased its activities on 31 December 2005 and the Australian Commission for Safety and Quality in Health Care assumed responsibility for many of the former Council's documents and initiatives. Therefore contact details for the former Council listed within the attached document are no longer valid.

The Australian Commission on Safety and Quality in Health Care can be contacted through its website at <http://www.safetyandquality.gov.au/> or by email mail@safetyandquality.gov.au

Note that the following document is copyright, details of which are provided on the next page.

The Australian Commission for Safety and Quality in Health Care was established in January 2006. It does not print, nor make available printed copies of, former Council publications. It does, however, encourage not for profit reproduction of former Council documents available on its website.

Apart from not for profit reproduction, and any other use as permitted under the *Copyright Act 1968*, no part of former Council documents may be reproduced by any process without prior written permission from the Commonwealth available from the Department of Communications, Information Technology and the Arts. Requests and enquiries concerning reproduction and rights should be addressed to the Commonwealth Copyright Administration, Intellectual Copyright Branch, Department of Communications, Information Technology and the Arts, GPO Box 2154, Canberra ACT 2601 or posted at <http://www.dcita.gov.au/cca>

Fall Prevention

in Older People

- Have you had a fall recently?
- Are you more than 65 years old?
- Do you take sleeping tablets?
- Is walking becoming harder?
- Do you have problems getting to the toilet on time?
- Do you have trouble with your eyesight?
- Do you have painful feet?
- Do you ever feel faint or dizzy?
- Do you have low vitamin D levels from spending little or no time in direct sunlight each day?
- Are you afraid of having a fall?

If you answered yes to any of these questions, you may be at risk of having a fall. Luckily, many falls are preventable. Ask your health professional for more advice on preventing falls.
