Subject: ASCSQHC discussion paper on National Safety and Quality Submission Accreditation Standards [No Protective Marking]

Dear Sir

I refer to the above mentioned discussion paper that has been prepared by the ACSQHC.

In this respect I refer to the submission that has been provided to yourselves by the Australian Private Hospital Association (reference their letter to Professor Margaret Banks dated 31st March 2007).

In this respect please note that our organisation (ie Glenelg Day Surgery Pty Ltd - provider number 657221Y) supports wholeheartedly the submission that has been prepared by the APHA.

Your sincerely

Mike Chalk  
General Manager
