Non-medicinal PBS/RPBS items	40

This document was last updated by the Commission in December 2022.

From 1 January 2023, the Australian Government Department of Health and Aged Care is managing the curation of Active ingredient prescribing resources. From this date, please direct all AIP enquiries to aiprescribing@health.gov.au

Introduction

In October 2019 the *National Health (Pharmaceutical Benefits) Amendment (Active Ingredient Prescribing) Regulations 2019*, and the *Veterans' Affairs Pharmaceutical Benefits Schemes (Electronic Prescriptions and Active Ingredient Prescribing) Amendment Instrument 2019* mandated active ingredient prescribing.

Active ingredient prescribing uses standardised International Non-proprietary Names (INN) for medicines and will apply for most Pharmaceutical Benefits Scheme (PBS)/Repatriation Pharmaceutical Benefits Scheme (RPBS) items. From 1 February 2021 most prescriptions generated for supply under the PBS and the RPBS must meet the revised arrangements to be eligible for subsidy.

The Australian Commission on Safety and Quality in Health Care (the Commission) has been engaged by the Australian Government Department of Health and Aged Care (the Department) to generate and maintain the following active ingredient prescribing clinical support documents:

- [Active ingredient prescribing – User guide for Australian prescribers](#) (user guide)
- [List of Medicines for Brand Consideration](#) (LMBC)
- **List of Excluded Medicinal Items** (LEMI).

The *Active ingredient prescribing – User guide for Australian prescribers* supports prescribers to prescribe medicines by the active ingredient with best practice guidance for specification of brand. Principles are outlined in the user guide to determine when prescribers should consider brand name specification if clinically necessary.

A list of medicines and non-medicinal items which are exempt from active ingredient prescribing requirements has been developed to support prescribers. This **List of Excluded Medicinal Items** should be prescribed by brand only for practicality and safety purposes. Clinical software systems will default to brand name only for items on the List of Excluded Medicinal Items.

The List of Excluded Medicinal Items has been reviewed several times by the Commission, according to the principles in the user guide. This was informed by the Commission's Active ingredient prescribing advisory group, and in consultation with the Australian Government Department of Health and Aged Care and the Therapeutic Goods Administration.

The *Active ingredient prescribing – User guide for Australian prescribers* provides full details on the implementation of active ingredient prescribing and the associated List of Medicines for Brand Consideration and the List of Excluded Medicinal Items. The List of Medicines for Brand Consideration includes medicines prescribers should consider prescribing by brand name, in addition to active ingredient name, if the inclusion of brand name is necessary for safe selection, or the clinical treatment of their patients.

List of Excluded Medicinal Items

List of medicines and supplementary pharmaceuticals to be prescribed by brand name only.

Products containing four or more active ingredients

- **Principle:** Prescribe by brand for practicality and safety.

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
For example: sodium chloride 470 mg + potassium chloride 300 mg (potassium 4 mmol) + glucose monohydrate 3.56 g + sodium acid citrate 530 mg powder for oral liquid, 10 × 4.9 g sachets	Products containing four or more active ingredients	Restore O.R.S.	O.R.S.	RPBS	Restricted benefit	<ul style="list-style-type: none"> • Authority required – Rehydration in intestinal failure • Restricted benefit – For treatment of a patient identifying as Aboriginal or Torres Strait Islander

Vaccines and allergenic extracts

- **Principle:** Prescribe by brand for practicality and safety
- **Notes:** Vaccines are comprised of varying strains, strengths, components and immunisation regimens. **All vaccines** should be prescribed by brand, including the examples shown below. Most vaccines available or mandated under the National Immunisation Schedule are not PBS listed.

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
For example: diphtheria 2 units + tetanus 20 units vaccine injection, 5 × 0.5 mL syringes	Vaccine	ADT Booster	N/A	✓	N/A	–
For example: meningococcal polysaccharide conjugate A, C, Y and W-135 vaccine	Vaccine	Nimenrix	N/A	✗	N/A	–

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
honey bee venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to honey bee venom	Hymenoptera Honey Bee Venom	N/A	✓	N/A	–
honey bee venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial] (& inert substance diluent [3 × 1.8 mL vials], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to honey bee venom	Albey Honey Bee Venom	N/A	✓	N/A	–
paper wasp venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to wasp venom	Hymenoptera Paper Wasp Venom	N/A	✓	N/A	–
paper wasp venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial] (& inert substance diluent [3 × 1.8 mL vials], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to wasp venom	Albey Paper Wasp Venom	N/A	✓	N/A	–
yellow jacket venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to Yellow Jacket (European Wasp) venom	Hymenoptera Yellow Jacket Venom	N/A	✓	N/A	–
yellow jacket venom 550 microgram injection [1 vial] (& inert substance diluent [9 mL vial] (& inert substance diluent [3 × 1.8 mL vials], 1 pack	Allergenic extracts – indicated for the diagnosis and treatment of hypersensitivity to Yellow Jacket (European Wasp) venom	Albey Yellow Jacket Venom	N/A	✓	N/A	–

Ocular lubricants and ophthalmological preparations

- **Principle:** Prescribe by brand for practicality and safety.

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
carbomer-974P 0.3% eye gel, 30 × 500 mg unit doses	Prescribe by brand for practicality and safety	Poly Gel	N/A	✓	N/A	Authority required – Severe dry eye syndrome
carbomer-980 0.2% eye drops, 30 × 0.6 mL unit doses	Prescribe by brand for practicality and safety	Viscotears Gel PF	N/A	✓	N/A	Authority required – Severe dry eye syndrome
carbomer-980 0.2% eye gel 10 g	Prescribe by brand for practicality and safety	Viscotears	<ul style="list-style-type: none"> • PAA • Optifresh eye gel 	✓	✓	<ul style="list-style-type: none"> • Restricted benefit – Severe dry eye syndrome, including Sjogren's syndrome • Brand premium applies to originator brand
carmellose sodium 0.5% eye drops, 10 mL	Prescribe by brand for practicality and safety	Evolve Carmellose	N/A	✓	N/A	Authority required – Severe dry eye syndrome
carmellose sodium 0.5% eye drops, 15 mL	Prescribe by brand for practicality and safety	Refresh Tears Plus	N/A	✓	N/A	Restricted benefit – Severe dry eye syndrome
carmellose sodium 0.5% eye drops, 30 × 0.4 mL unit doses	Prescribe by brand for practicality and safety	Cellufresh	Optifresh Tears	✓	✓	<ul style="list-style-type: none"> • Severe dry eye syndrome (patient must be sensitive to preservatives in multi-dose eye drops) • Brand premium applies to originator brand
carmellose sodium 1% eye drops, 15 mL	Prescribe by brand for practicality and safety	Refresh Liquigel	N/A	✓	N/A	Severe dry eye syndrome

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
carmellose sodium 1% eye drops, 30 × 0.4 mL unit doses	Prescribe by brand for practicality and safety	Celluvisc	Optifresh Plus	✓	✓	<ul style="list-style-type: none"> Authority required – Severe dry eye syndrome (patient must be sensitive to preservatives in multi-dose eye drops) Brand premium applies to originator brand
carmellose sodium 0.5% + glycerol 0.9% eye drops, 15 mL	Prescribe by brand for practicality and safety	Optive	N/A	✓	N/A	Restricted benefit – Severe dry eye syndrome
dextran-70 0.1% + hypromellose 0.3% eye drops, 15 mL	Prescribe by brand for practicality and safety	Tears Naturale	Poly-Tears	✓	✓	<ul style="list-style-type: none"> Restricted benefit – Severe dry eye syndrome Brand premium applies to originator brand
dextran-70 0.1% + hypromellose 0.3% eye drops, 28 × 0.4 mL unit doses	Prescribe by brand for practicality and safety	Bion Tears	N/A	✓	N/A	Authority required – Severe dry eye syndrome

retinol palmitate 0.0138% + paraffin eye ointment, 5 g	Prescribe by brand for practicality and safety	VitA-Pos	N/A	✓	N/A	

Dermatological preparations – topical emollients and washes

- **Principle:** Prescribe by brand for practicality and safety.

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
light liquid paraffin 3.5% + cocoamphodiacetate disodium 3% lotion, 500 mL	Prescribe by brand for practicality and safety	Hamilton Skin Therapy Wash	N/A	RPBS	N/A	Bath wash
skin emollient lotion 500 mL	Prescribe by brand for practicality and safety	Alpha Keri Lotion	N/A	RPBS	N/A	Skin emollient
skin emollient bath oil 500 mL	Prescribe by brand for practicality and safety	<ul style="list-style-type: none"> • Alpha Keri Bath Oil • Hamilton Skin Therapy Oil 	QV Bath Oil	RPBS	RPBS	Skin emollient
glycerol 5% + white soft paraffin 5% lotion, 1 L	Prescribe by brand for practicality and safety	QV Skin Lotion	N/A	RPBS	N/A	Skin emollient
bemotrizinol 1% + octocrylene 2% + diethylamino hydroxybenzoyl hexyl benzoate 3.5% + titanium dioxide 2% lotion, 125 mL	Prescribe by brand for practicality and safety	Sunsense Ultra SPF 50+ Lotion	N/A	RPBS	N/A	Protectives against UV radiation
sunscreens cream 75 g	Prescribe by brand for practicality and safety	Sunsense Sensitive SPF 50+ Cream	N/A	RPBS	N/A	Protectives against UV radiation

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
sunscreens lotion (non-alcoholic) 125 mL	Prescribe by brand for practicality and safety	Aquasun Lotion SPF 18	N/A	RPBS	N/A	Protectives against UV radiation
coal tar solution 5% + phenol 0.5% + precipitated sulfur 0.5% gel, 30 g	Prescribe by brand for practicality and safety	Egopsoryl-TA	N/A	RPBS	N/A	Topical treatment for psoriasis
tar 1% + coal tar solution 1% + salicylic acid 2% solution, 250 mL	Prescribe by brand for practicality and safety	Sebitar	N/A	RPBS	N/A	Other dermatological preparations
tar 2.3% + trolamine lauril sulfate 6% solution, 500 mL	Prescribe by brand for practicality and safety	Pinetarsol	N/A	RPBS	N/A	Other dermatological preparations
salicylic acid with coal tar solution scalp cleanser 20 mg–50 mg/mL (2%–5%), 200 mL, 1	Prescribe by brand for practicality and safety	Ionil-T	N/A	RPBS	N/A	Other dermatological preparations

Treatments for haemorrhoids and constipation

- **Principle:** Prescribe by brand for practicality and safety.

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
zinc oxide 10.75% + peru balsam 1.88% + benzyl benzoate 1.25% ointment, 50 g	Prescribe by brand for practicality and safety	Anusol Ointment	N/A	RPBS	N/A	Treatment of haemorrhoids and anal fissures
zinc oxide 300 mg + peru balsam 50 mg + benzyl benzoate 33 mg suppository, 12	Prescribe by brand for practicality and safety	Anusol Suppositories	N/A	RPBS	N/A	Treatment of haemorrhoids and anal fissures
sodium citrate dihydrate 450 mg/5 mL + lauryl sulfoacetate sodium 45 mg/5 mL + sorbitol 3.125 g/5 mL enema, 4 × 5 mL	Prescribe by brand for practicality and safety	Micolette	N/A	RPBS	N/A	Medicines for constipation
sodium citrate dihydrate 450 mg/5 mL + lauryl sulfoacetate sodium 45 mg/5 mL + sorbitol 3.125 g/5 mL enema, 12 × 5 mL	Prescribe by brand for practicality and safety	Micolette	N/A	✓	N/A	Medicines for constipation

Diagnostic tools

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
glucose indicator urine diagnostic strip, 50	–	Diastix	N/A	✓	N/A	Restricted benefit
glucose and ketone indicator urine diagnostic strip, 50	–	Keto-Diastix	N/A	✓	N/A	Restricted benefit

Auricular preparations

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
carbamide peroxide 6.5% ear drops, 12 mL	Prescribe by brand for practicality and safety	Ear Clear for Ear Wax removal	N/A	RPBS only	N/A	–
docusate sodium 0.5% ear drops, 10 mL	Prescribe by brand for practicality and safety	Waxsol	N/A	RPBS only	N/A	–

Vitamins, minerals and trace elements

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
vitamins, minerals and trace elements powder for oral liquid, 30 × 7 g sachets	–	Phlexy-Vits	N/A	✓	N/A	Restricted benefit – Dietary management of conditions requiring a highly restrictive therapeutic diet
vitamins, minerals and trace elements with carbohydrate powder for oral liquid, 30 × 6 g sachets	–	FruitiVits	N/A	✓	N/A	Restricted benefit – Dietary management of conditions requiring a highly restrictive therapeutic diet
vitamins, minerals and trace elements with carbohydrate powder for oral liquid, 200 g	–	Paediatric Seravit	N/A	✓	N/A	Restricted benefit – Dietary management of conditions requiring a highly restrictive therapeutic diet

Various, general nutrients, other nutrients

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid synthetic formula supplemented with long chain polyunsaturated fatty acids and medium chain triglycerides powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Alfamino	N/A	✓	N/A	<ul style="list-style-type: none"> • Authority required – Cows' milk protein enteropathy • Authority required – Severe cows' milk protein enteropathy with failure to thrive • Authority required – Combined intolerance to cows' milk protein, soy protein and protein hydrolysate formulae • Authority required – Cows' milk anaphylaxis • Authority required – Proven combined immunoglobulin E (IgE) mediated allergy to cows' milk protein and soy protein • Authority required – Severe intestinal malabsorption including short bowel syndrome • Authority required – Eosinophilic oesophagitis

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid formula with fat, carbohydrate, vitamins, minerals, trace elements and medium chain triglycerides powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Alfamino Junior	N/A	✓	N/A	<ul style="list-style-type: none"> • Authority required – Cows' milk protein enteropathy • Authority required – Severe cows' milk protein enteropathy with failure to thrive • Authority required – Combined intolerance to cows' milk protein, soy protein and protein hydrolysate formulae • Authority required – Cows' milk anaphylaxis • Authority required – Proven combined immunoglobulin E (IgE) mediated allergy to cows' milk protein and soy protein • Authority required – Severe intestinal malabsorption including short bowel syndrome • Authority required – Eosinophilic oesophagitis
protein hydrolysate formula with medium chain triglycerides powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Alfare	N/A	✓	N/A	–
protein hydrolysate formula with medium chain triglycerides powder for oral liquid, 450 g	Prescribe by brand for practicality and safety	Aptamil Gold+ Pepti-Junior	N/A	✓	N/A	–
protein formula with arginine, vitamin C and E powder for oral liquid	Prescribe by brand for practicality and safety	Arginaid	N/A	RPBS only	N/A	Restricted benefit – Urea cycle disorders
protein formula with arginine, vitamin C, E and zinc oral liquid	Prescribe by brand for practicality and safety	Cubitan	N/A	RPBS only	N/A	Restricted benefit – Urea cycle disorders

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
arginine with carbohydrate containing 500 mg arginine powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Arginine 500	N/A	✓	N/A	Restricted benefit – Urea cycle disorders
arginine with carbohydrate containing 2 g arginine powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Arginine 2000	N/A	✓	N/A	Restricted benefit – Urea cycle disorders
arginine with carbohydrate containing 5 g arginine powder for oral liquid, 30 × 7.6 g sachets	Prescribe by brand for practicality and safety	Arginine 5000	N/A	✓	N/A	Restricted benefit – Urea cycle disorders
carbohydrates, fat, vitamins, minerals, trace elements and supplemented with arachidonic acid and docosahexaenoic acid providing 200 kcal powder for oral liquid, 30 × 43 g sachets	Prescribe by brand for practicality and safety	basecal 200	N/A	✓	N/A	Restricted benefit – Proven inborn errors of protein metabolism
medium chain triglycerides oral liquid, 15 × 225 mL bottles	Prescribe by brand for practicality and safety	Betaquik	N/A	✓	N/A	<ul style="list-style-type: none"> • Authority required – Ketogenic diet • Authority required – Dietary management of conditions requiring a source of medium chain triglycerides
glycomacropeptide and essential amino acids with vitamins and minerals powder for oral liquid, 30 × 49 g sachets	Prescribe by brand for practicality and safety	Camino Pro Bettermilk	N/A	✓	N/A	Restricted benefit – Phenylketonuria
glycomacropeptide and essential amino acids with vitamins and minerals bar, 7 × 81 g	Prescribe by brand for practicality and safety	Camino Pro Complete	N/A	✓	N/A	Restricted benefit – Phenylketonuria
milk protein and fat formula with vitamins and minerals carbohydrate free powder for oral liquid, 225 g	Prescribe by brand for practicality and safety	Carbohydrate Free Mixture	N/A	✓	N/A	Restricted benefit- Ketogenic Diet

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
potassium chloride 595 mg + potassium bicarbonate 384 mg + potassium carbonate 152 mg (total potassium 14 mmol) effervescent tablet, 60	Prescribe by brand for practicality and safety	Chlorvescent	N/A	✓	N/A	–
citrulline with carbohydrate containing 1 g citrulline powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Citrulline 1000	N/A	✓	N/A	Restricted benefit – Urea cycle disorders
citrulline 1 g tablet, 300	Prescribe by brand for practicality and safety	Citrulline Easy	N/A	✓	N/A	Restricted benefit – Urea cycle disorders
protein formula with arginine, vitamin C, E and zinc oral liquid	Prescribe by brand for practicality and safety	Arginaid extra	N/A	RPBS only	N/A	Restricted benefit – Stage 2 and above pressure injury
essential amino acids formula with minerals and vitamin C powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Dialamine	N/A	✓	N/A	Restricted benefit – Gyrate atrophy of the choroid and retina / Urea cycle disorders
docosahexaenoic acid with carbohydrate containing 200 mg docosahexaenoic acid powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	docomega	N/A	✓	N/A	Restricted benefit – Peroxisomal biogenesis disorders
triglycerides medium chain and long chain with glucose polymer powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Duocal	N/A	✓	N/A	Restricted benefit – Proven inborn errors of protein metabolism
essential amino acids formula with vitamins and minerals powder for oral liquid, 50 × 12.5 g sachets	Prescribe by brand for practicality and safety	EAA Supplement	N/A	✓	N/A	Restricted benefit – Gyrate atrophy of the choroid and retina / Urea cycle disorders

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid formula with vitamins and minerals without phenylalanine oral liquid, 18 x 250 mL	Prescribe by brand for practicality and safety	Easiphen	N/A	✓	N/A	Restricted benefit – Phenylketonuria
amino acid synthetic formula powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	EleCare	N/A	✓	N/A	Authority required – Eosinophilic oesophagitis
amino acid synthetic formula powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	EleCare	N/A	✓	N/A	<ul style="list-style-type: none"> • Authority required – Cows' milk anaphylaxis • Authority required – Cows' milk protein enteropathy • Authority required – Severe cows' milk protein enteropathy with failure to thrive • Authority required – Combined intolerance to cows' milk protein, soy protein and protein hydrolysate formulae • Authority required – proven combined immunoglobulin E (IgE) mediated allergy to cows' milk protein and soy protein • Authority required – Severe intestinal malabsorption including short bowel syndrome

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid synthetic formula supplemented with long chain polyunsaturated fatty acids powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	EleCare LCP	N/A	✓	N/A	<ul style="list-style-type: none"> • Authority required – Cows' milk anaphylaxis • Authority required – Cows' milk protein enteropathy • Authority required – Severe cows' milk protein enteropathy with failure to thrive • Authority required – Combined intolerance to cows' milk protein, soy protein and protein hydrolysate formulae • Authority required – Proven combined immunoglobulin E (IgE) mediated allergy to cows' milk protein and soy protein • Authority required – Severe intestinal malabsorption including short bowel syndrome
carbohydrate, fat, vitamins, minerals and trace elements powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Energivit	N/A	✓	N/A	Restricted benefit – Proven inborn errors of protein metabolism
essential amino acids formula powder for oral liquid, 2 × 200 g	Prescribe by brand for practicality and safety	Essential Amino Acid Mix	N/A	✓	N/A	Restricted benefit – Gyrate atrophy of the choroid and retina / Urea cycle disorders
amino acid formula with vitamins and minerals without lysine and low in tryptophan powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	GA Anamix infant	N/A	✓	N/A	Restricted benefit – Proven glutaric aciduria type 1
amino acid formula with vitamins and minerals without lysine and low in tryptophan powder for oral liquid, 30 × 25 g sachets	Prescribe by brand for practicality and safety	GA express 15	N/A	✓	N/A	Restricted benefit – Proven glutaric aciduria type 1

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid formula with vitamins and minerals without lysine and low in tryptophan powder for oral liquid, 30 × 24 g sachets	Prescribe by brand for practicality and safety	GA Gel	N/A	✓	N/A	Restricted benefit – Proven glutaric aciduria type 1
amino acid formula with vitamins and minerals without lysine and low in tryptophan powder for oral liquid, 30 × 18 g sachets	Prescribe by brand for practicality and safety	GA1 Anamix Junior	N/A	✓	N/A	Restricted benefit – Proven glutaric aciduria type 1
glycine with carbohydrate containing 500 mg glycine powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Glycine500	N/A	✓	N/A	Restricted benefit – Isovaleric acidaemia
modified long chain amylopectin powder for oral liquid, 30 × 60 g sachets	Prescribe by brand for practicality and safety	Glycosade	N/A	✓	N/A	Restricted benefit – Glycogen storage disease
amino acid formula with vitamins and minerals without methionine powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	HCU Anamix infant	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria.
amino acid formula with vitamins and minerals without methionine powder for oral liquid, 30 × 36 g sachets	Prescribe by brand for practicality and safety	HCU Anamix Junior	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with fat, carbohydrate, vitamins, minerals and trace elements without methionine and supplemented with docosahexaenoic acid oral liquid, 36 × 125 mL bottles	Prescribe by brand for practicality and safety	HCU Anamix junior LQ	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with vitamins and minerals without methionine oral liquid, 30 × 87 mL sachets	Prescribe by brand for practicality and safety	HCU cooler 10	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
amino acid formula with vitamins and minerals without methionine oral liquid, 30 × 130 mL pouches	Prescribe by brand for practicality and safety	HCU cooler 15	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with vitamins and minerals without methionine oral liquid, 30 × 174 mL sachets	Prescribe by brand for practicality and safety	HCU cooler 20	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with fat, carbohydrate without methionine modified release tablet, 6 × 77	Prescribe by brand for practicality and safety	HCU Easy Tablet	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with vitamins and minerals without methionine powder for oral liquid, 30 × 25 g sachets	Prescribe by brand for practicality and safety	HCU express 15	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with vitamins and minerals without methionine powder for oral liquid, 30 × 24 g sachets	Prescribe by brand for practicality and safety	HCU gel	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
amino acid formula with vitamins and minerals without methionine oral liquid, 30 × 125 mL pouches	Prescribe by brand for practicality and safety	HCU Lophlex LQ 20	N/A	✓	N/A	Restricted benefit – Pyridoxine non-responsive homocystinuria
isoleucine with carbohydrate containing 1 g isoleucine powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Isoleucine 1000	N/A	✓	N/A	Restricted benefit – Maple syrup urine disease
isoleucine with carbohydrate containing 50 mg isoleucine powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Isoleucine 50	N/A	✓	N/A	Restricted benefit – Maple syrup urine disease

INN (active ingredient name)	Principle	Originator brand	Generic brand	Originator PBS listed	Generic PBS listed	Notes
high fat formula with vitamins, minerals and trace elements and low in protein and carbohydrate (3:1 ratio long chain fat to carbohydrate plus protein) powder for oral liquid, 300 g	Prescribe by brand for practicality and safety	KetoCal 3:1	N/A	✓	N/A	Restricted benefit – Ketogenic diet
high fat formula with vitamins, minerals and trace elements and low in protein and carbohydrate (4:1 ratio long chain fat to carbohydrate plus protein) powder for oral liquid, 300 g	Prescribe by brand for practicality and safety	KetoCal 4:1	N/A	✓	N/A	Restricted benefit – Ketogenic diet
high fat formula with vitamins, minerals and trace elements and low in protein and carbohydrate (4:1 ratio long chain fat to carbohydrate plus protein) oral liquid, 32 × 200 mL cartons	Prescribe by brand for practicality and safety	KetoCal 4:1 LQ	N/A	✓	N/A	Restricted benefit – Ketogenic diet
high fat formula with vitamins, minerals and trace elements and low in protein and carbohydrate oral semi-solid, 48 × 100 g tubs	Prescribe by brand for practicality and safety	Keyo	N/A	✓	N/A	Restricted benefit – Ketogenic diet
arachidonic acid and docosahexaenoic acid with carbohydrate containing 200 mg arachidonic acid and 100 mg docosahexaenoic acid powder for oral liquid, 30 × 4 g sachets	Prescribe by brand for practicality and safety	Keyomega	N/A	✓	N/A	Restricted benefit – Peroxisomal biogenesis disorders
whey protein formula supplemented with amino acids, vitamins and minerals, and low in protein, phosphate, potassium and lactose powder for oral liquid, 400 g	Prescribe by brand for practicality and safety	Kindergen	N/A	✓	N/A	Authority required – Chronic Renal failure
