

Draft COPD Clinical Care Standard

Consultation questions

Questions about each quality statement

1. Does the quality statement adequately describe the care that should be provided?
 - a. How could the quality statement be improved?
2. Does the supporting information for patients, clinicians and healthcare services adequately explain the care described in the quality statement?
 - a. How could the supporting information be improved?
3. Are the proposed indicators useful in supporting local clinical quality improvement activities?
 - a. How could the indicators be improved?

Questions about the clinical care standard

4. The quality statements focus on areas identified by the Commission as being a priority for quality improvement. Are there additional areas or aspects of care that should be included?
 - a. If so, please provide further detail.
5. Are you aware of any current or planned initiatives that could support implementation of this clinical care standard?
 - a. If so, please provide further detail.

6. Please provide any further comments you would like to make about this clinical care standard.

Questions about cultural safety and equity

7. Is the content on cultural safety and equity in the standard useful and appropriate?
 - a. How could the cultural safety and equity content be improved?

Questions about the supporting resources

8. Does the *Consumer Guide* adequately explain the care described in the Standard for a consumer audience?
 - a. If not, how could this resource be improved?
