

# COULD IT BE SEPSIS?

ASKING THE QUESTION  
CAN SAVE LIVES.

## WHAT IS SEPSIS?

Sepsis is your body's  
reaction to an infection.

It can damage important  
organs like your heart or  
lungs and cause serious  
illness or death.

If you have symptoms and  
are worried, call Triple Zero  
(000) or go to your local  
health clinic or hospital.
