

Medication Management at Transitions of Care Stewardship Framework

Ms Natalie Kahwajy

BPharm (Hons), GCHHealthServMgt (Safe&Qual)

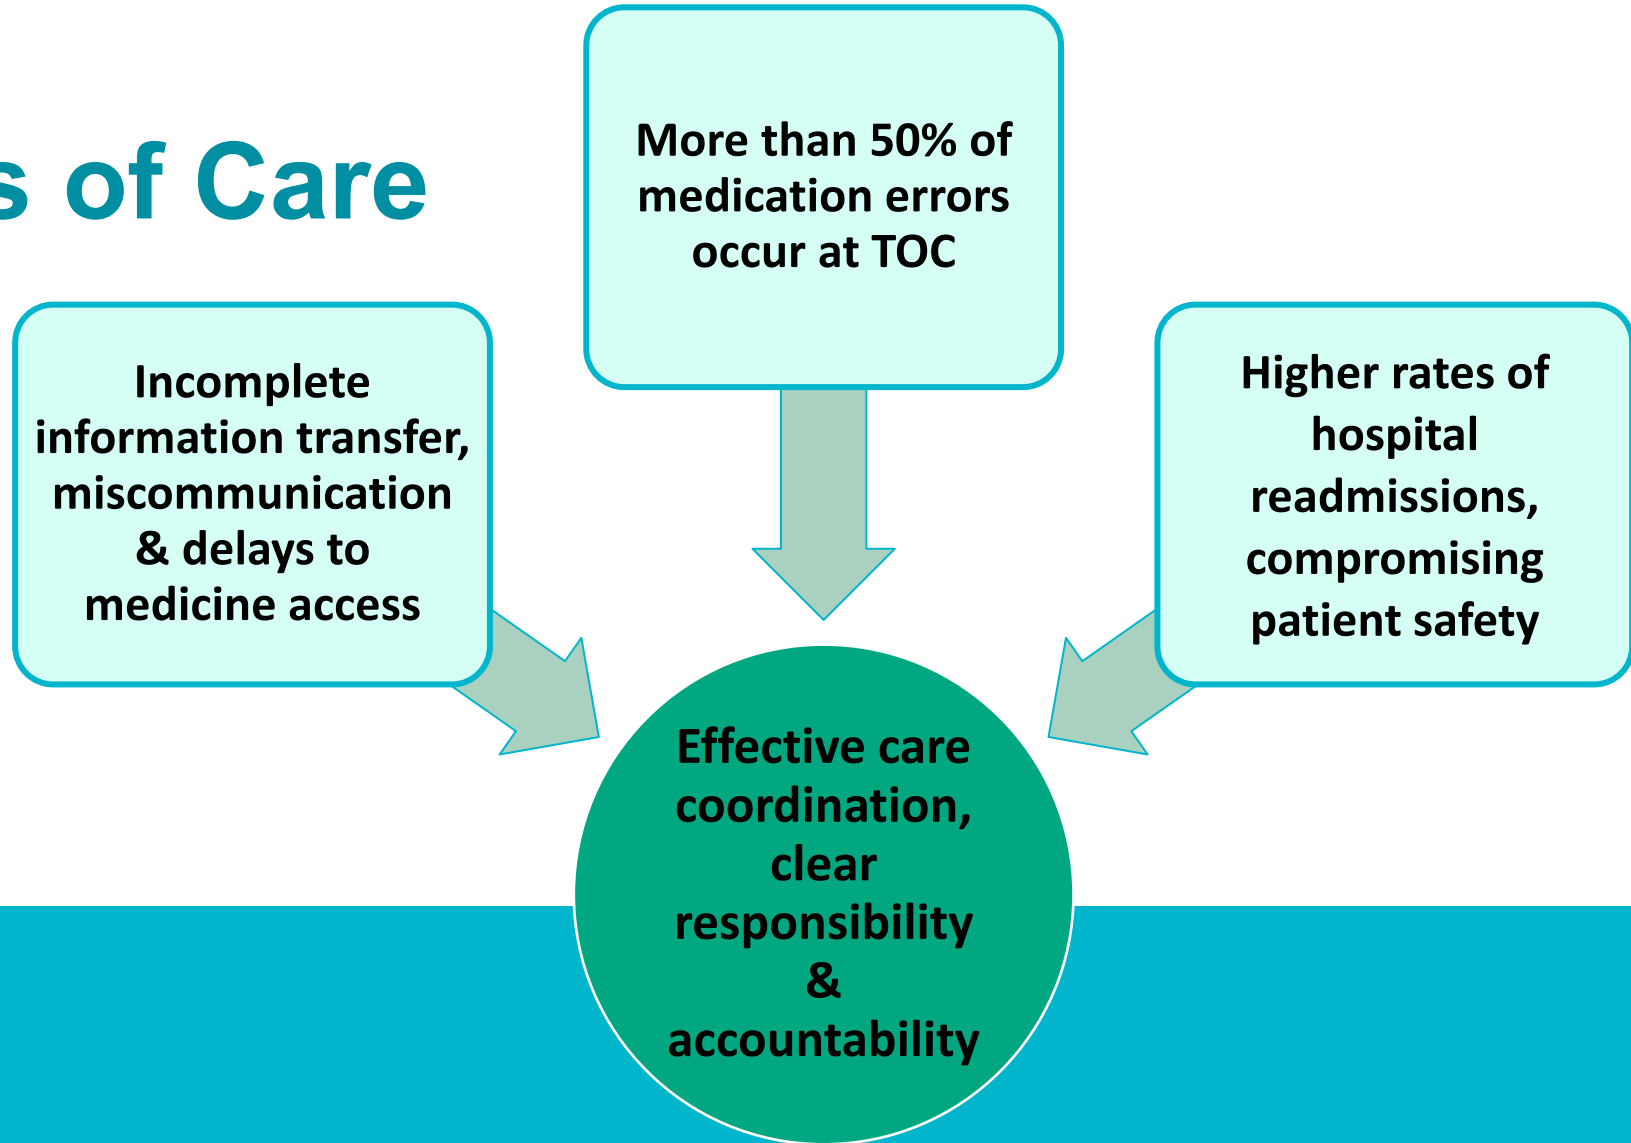

Senior Project Officer, Digital Health

Australian Commission on Safety and Quality in
Health Care

Transitions of Care

NATIONAL COMMITMENT TO SAFER TRANSITIONS OF CARE

Principles of safe and high-quality transitions of care

Person-centred
Transitions of care are based on shared decision-making, informed consent and goals of care.

Multidisciplinary collaboration
There are established systems for collaboration and communication amongst the multidisciplinary team, including the person's regular general practitioner to support them in the coordination of their care.

Documenting and accessing information
There is an enduring comprehensive and secure record system to document and access information about the person's previous and ongoing care, at transitions.

Ongoing continuity of care
There is coordination and continuity of care, that relies on responsibility and accountability between the treating team, the person, their family/carer, and the receiving service.

AUSTRALIAN COMMISSION ON SAFETY AND QUALITY IN HEALTH CARE

January 2020

Medication without harm

WHO Global Patient Safety Challenge

Australia's response

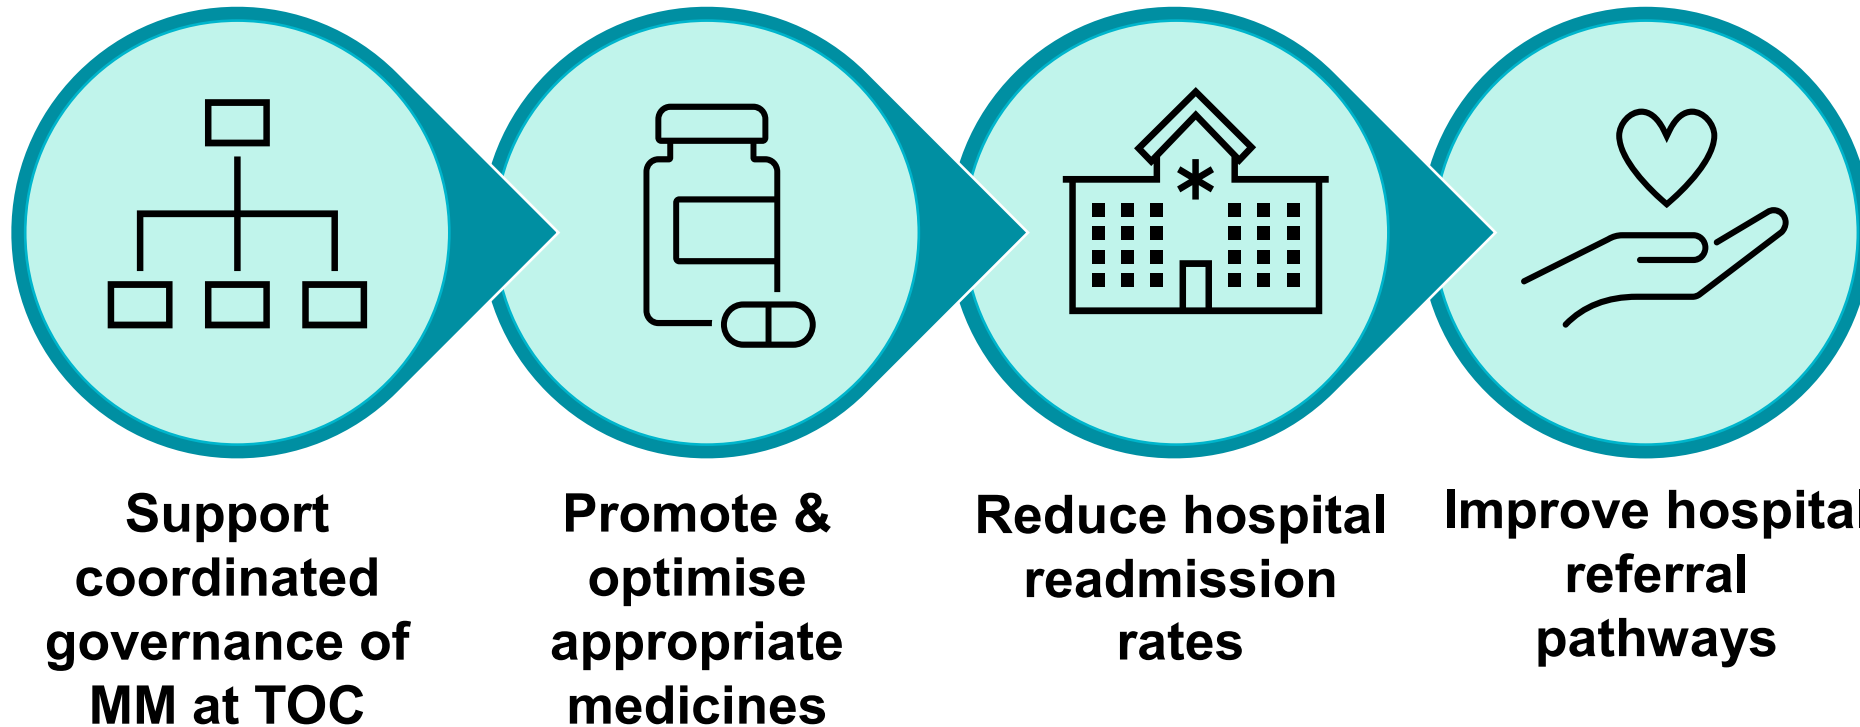

DIGITALLY MATURE HEALTH INFRASTRUCTURE

Building the Framework

- Literature Review & Environmental Scan
- Existing stewardship frameworks & programs (e.g., AMS)
- Dedicated Project Advisory Group
- Targeted internal & external stakeholder consultation
- Public consultation

Framework Objectives

Medication Management at Transitions of Care Stewardship Framework

Element 1:
Structure
and
governance

Element 2:
Multidisciplinary
Stewardship
team

Element 3:
Activities to support
safer Medication
Management at
Transition of Care

Element 4:
Ongoing
monitoring,
evaluation
and reporting

**Acute
care**

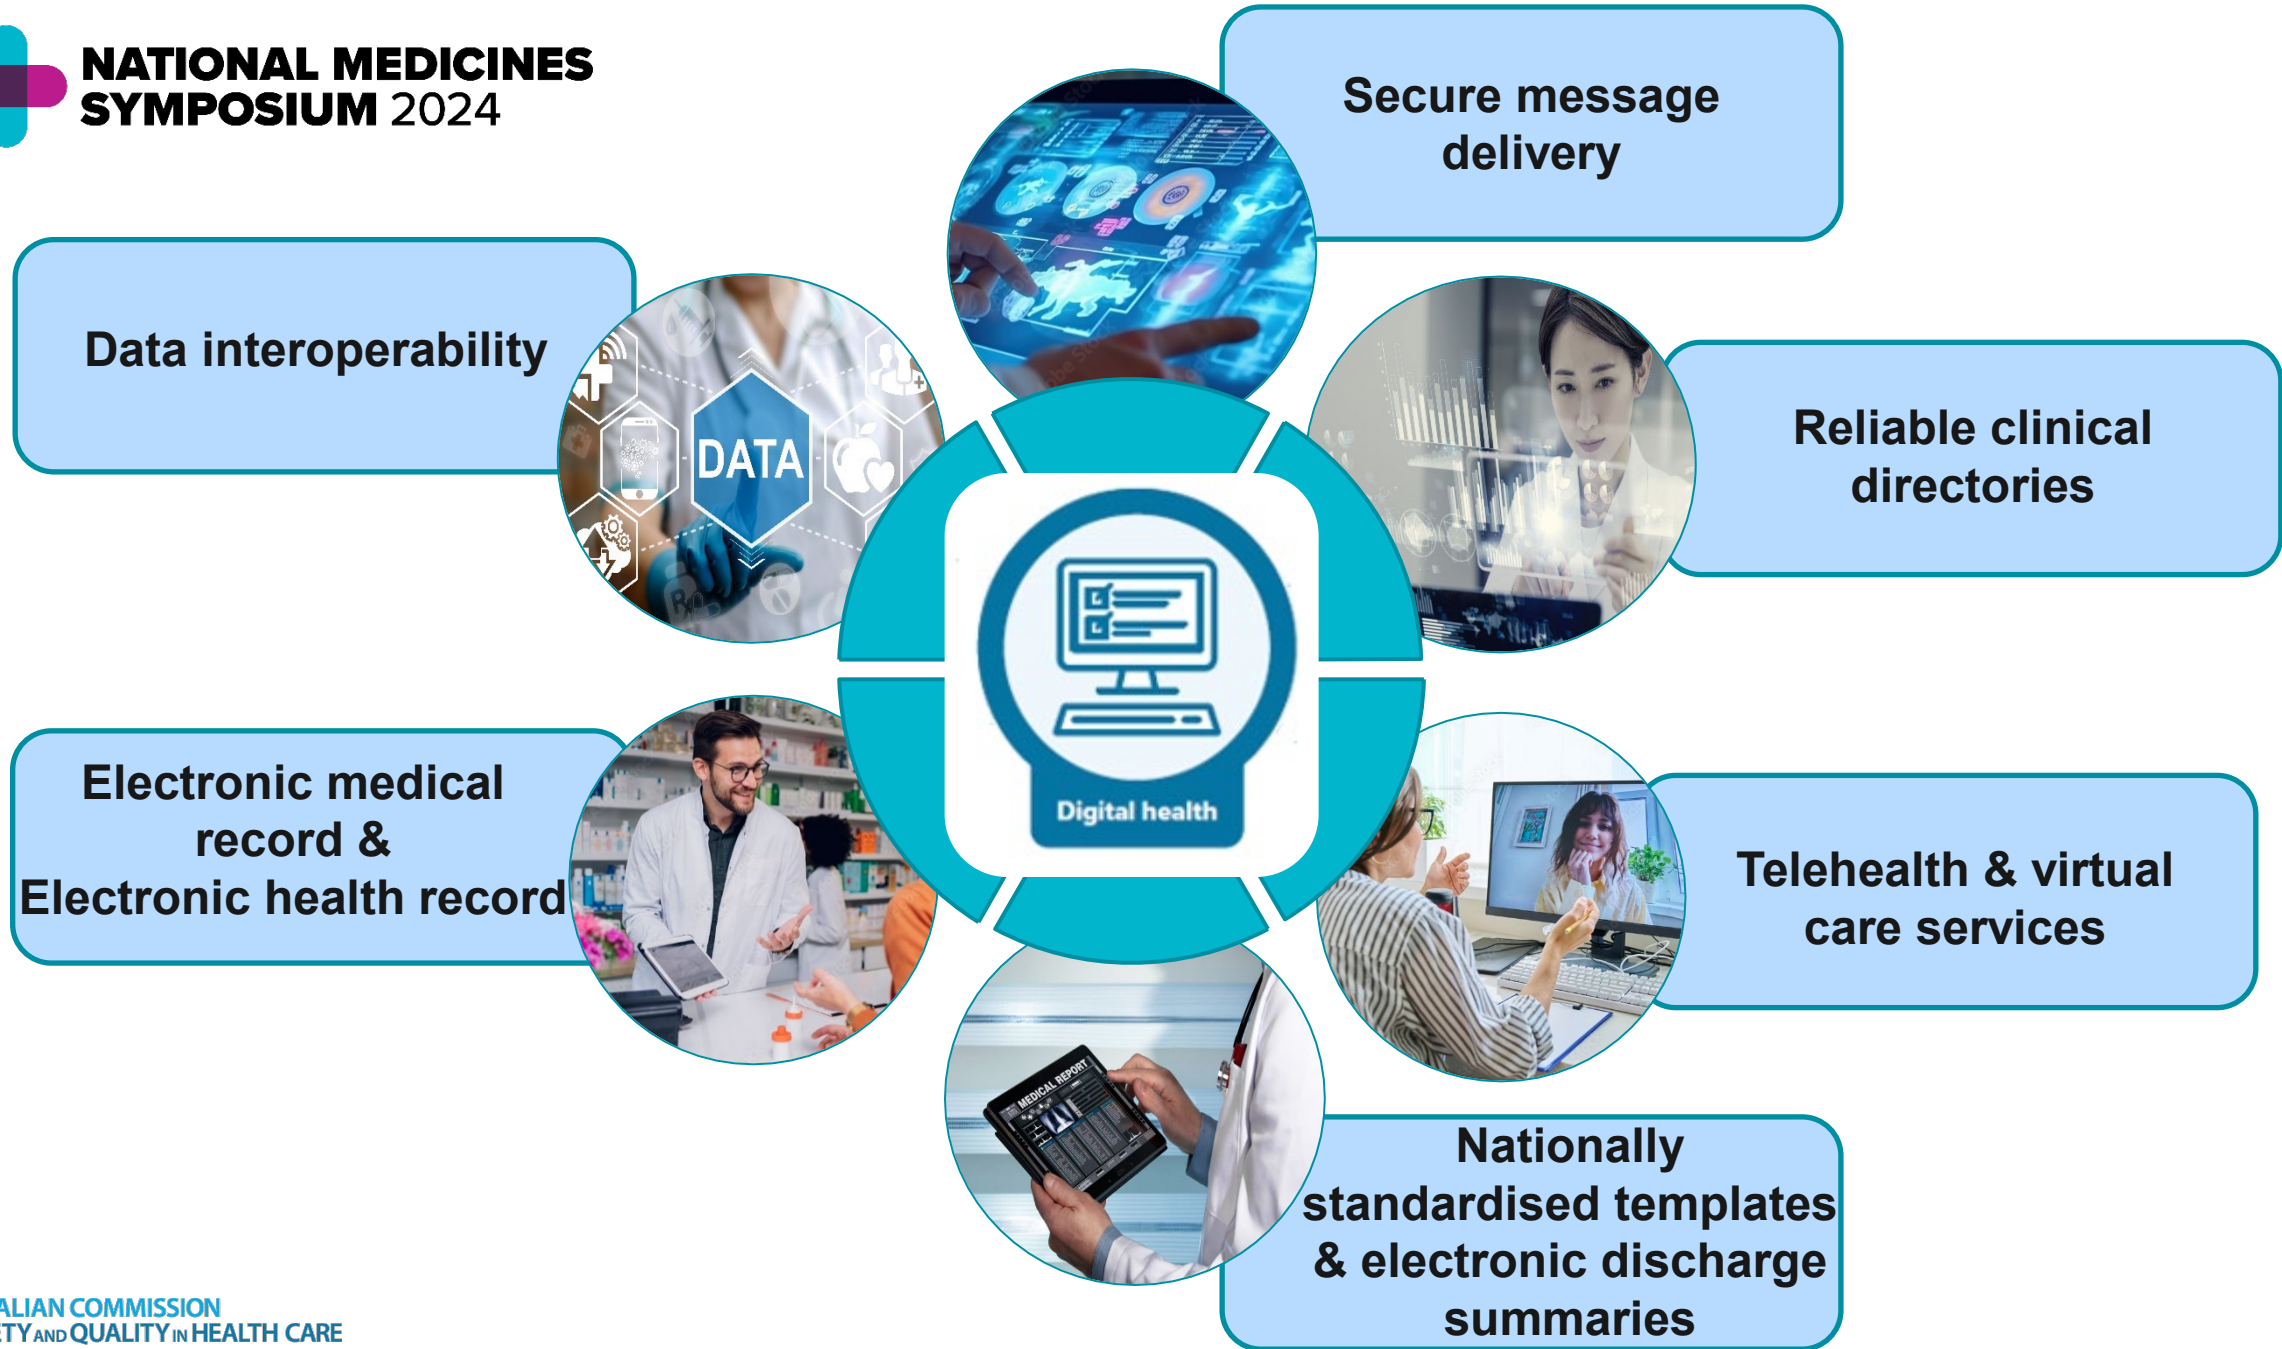

Digital health is key to interoperability,
accuracy, timeliness and accountability

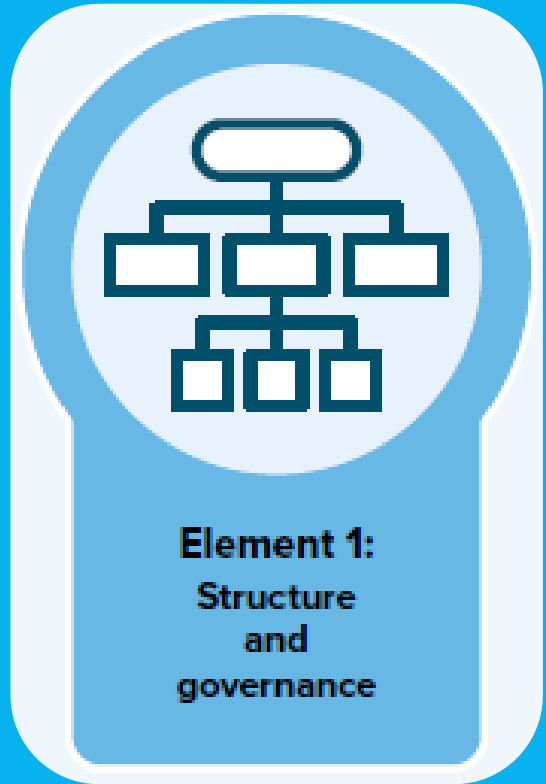

**Primary and
aged care**

NATIONAL MEDICINES SYMPOSIUM 2024

Effective leadership, clearly defined roles, responsibilities & accountability

Institutional support & executive buy-in

Local policies & procedures

Multidisciplinary Stewardship committee

**NATIONAL
MEDICINES
SYMPOSIUM**
2024

**Element 2:
Multidisciplinary
Stewardship
team**

To coordinate, champion & implement local MM at TOC Stewardship

To lead internal & external stakeholder engagement > facilitate collaborative planning & decision making

**NATIONAL
MEDICINES
SYMPOSIUM**
2024

Element 3:
Activities to support
safer Medication
Management at
Transition of Care

Stewardship activities on admission,
during admission, at discharge and when
transitioning into primary and aged care

**NATIONAL
MEDICINES
SYMPOSIUM**
2024

**Medication
Reconciliation**

**Partnered
Pharmacist
Medication
Charting**

**Clinical handover
&
communicating
for safety**

**Risk
stratification to
select priority
patients**

**Timely Discharge
Summary
Provision &
Upload to MHR**

**Collaborative
medication
review post
discharge**

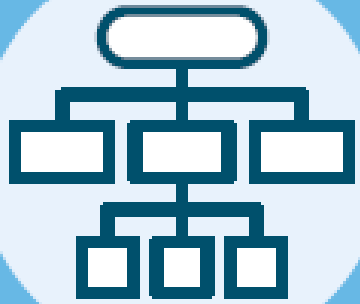

Element 4:
Ongoing
monitoring,
evaluation
and reporting

Continuous review, evaluation & measurement against relevant quality indicators

Quality improvement initiatives that optimise care provision

Element 1:
Structure
and
governance

Element 2:
Multidisciplinary
Stewardship
team

Element 3:
Activities to support
safer Medication
Management at
Transition of Care

Element 4:
Ongoing
monitoring,
evaluation
and reporting
